

A European fuel-saving tyre for compact passenger cars. Packed full of technology this is a real fuel saving tyre for smaller cars. Multi-bulge points of sipe improve resistance to aquaplaning and a bridge of sipe enhances block stiffness. Arc-shaped grooves enhance wet weather performance whilst the lateral groove bridge reinforces rigidity to improve handling. The advanced flat tread design reduces rolling resistance, and improves tyre rigidity to decrease deformation. High-tension cap ply improves tread stiffness for better high-speed handling and a super high tension belt maintains tread stiffness for a safer performance.

SPECIFICATIONS

Rim Size	Size	Service Description	SideWall Name	Overall Diameter	Section Width	MaxPSI	Max Load [lbs]	Approved Rim Width [in]	Ply Rating	P/C/LT	Radial/Bias	Tread Depth
